

Information request

Information request is related to Department of Infrastructure

Please provide a short label to describe this request Flood Prevention

Information required On your "Flood Hub" website here -
<https://iomfloodhub.im/your-area-menu/maintenance-works/>

you sate-

" We carry out planned maintenance works on designated watercourses each year. Maintenance works to structures, unless in an emergency, are carried out between July and September to avoid habitat disturbance. These maintenance works are decided based on Asset Condition Surveys (T98 Surveys) undertaken yearly/twice-yearly.

Reactive unplanned maintenance works such as tree/debris removal occurs all throughout the year.

Please let me have -

1. Details of all planned maintenance works carried out on the River Glass in respect of each year since the introduction of the Flood Risk Management Act 2013 ("FRMA") ; and
2. Copies of all T 98 surveys which have been undertaken on the River Glass since the introduction of the FRMA.
3. Details of all unplanned maintenance works which have been carried out throughout all of the years referred to.
